**Pre Conference Workshop: 30th October 2025 In Association
with SGRD University of Health Sciences Sri Amritsar**

Sponsorship Brochure

Welcome Message

Dear Industry Partner,

The **Diabetic Foot Society of India (DFSI)** is one of the few societies worldwide dedicated to the management of diabetic foot complications. Since its inception on **March 30, 2002**, DFSI has been at the forefront of training and sensitizing medical and paramedical professionals through highly structured, innovative, and state-of-the-art educational programs in India and abroad. Our relentless efforts have significantly advanced the understanding of diabetic foot problems and led to the development of newer procedures in the field.

DFSI has played a pivotal role in transforming diabetic foot care in India—from a largely neglected complication to a well-recognized and actively managed condition. Through extensive training programs, we have empowered numerous **physicians, surgeons, anesthesiologists, and paramedics** to provide better care. Additionally, DFSI has contributed to **enhancing the quality of diabetic footwear** in India by guiding manufacturers in designing footwear that meets the specific needs of diabetic feet, based on well-established principles.

In **2025**, we are proud to present another landmark event - **DFSICON 2025**, to be held in the **Gurunagri, Amritsar** from **30-Oct-2025 to 2-Nov-2025 At Raddisson Blu Hotel**. This academic extravaganza will feature renowned **international and national faculty**, eager to share their knowledge and expertise. The conference will include **exclusive master classes** by leaders in the field, offering valuable skill enhancement opportunities for fellow doctors.

We anticipate the participation of **800+ delegates**, including distinguished doctors and surgeons from India and around the world. With strong early interest in registrations, we are excited about the immense potential of this event.

We sincerely invite you to join us in making **DFSICON 2025** a grand success. Your **wholehearted support and participation** will not only contribute to the advancement of diabetic foot care but also provide an excellent platform for collaboration and innovation in this crucial field.

We look forward to your positive response and valuable partnership.

With best regards,

Team DFSICON2025
